18th Annual Renal Professional Forum September 27th – 29th, 2023

ABOUT THE PROGRAM & TARGET AUDIENCE

The National Kidney Foundation is the nation's leader in the fight to end kidney disease. It strives to improve the quality of care for kidney patients by educating and supporting the professionals who serve them. In response to the need for more educational opportunities for renal professionals in Florida, the National Kidney Foundation of Florida has been hosting the Renal Professional Forum since 2004, a two-day conference offering continuing education credits for renal social workers, dietitians, nurses and technicians. The **NKF of Florida** is bringing all disciplines together at its annual conference addressing the latest clinical topics and issues and future trends. Last year, over 100 renal professionals attended and ranked the presentations with a 99% satisfaction rating for the sessions they attended.

The National Kidney Foundation also uses this opportunity to recognize professionals. Exemplary Practice Awards are presented to a nurse, social worker, dietitian, physician and patient care technician who have demonstrated exceptional service to kidney patients. Professionals are nominated by their peers in their field of expertise and the awards are presented to the outstanding nominees.
